

Stool or Sill Extension Jamb

Application To:

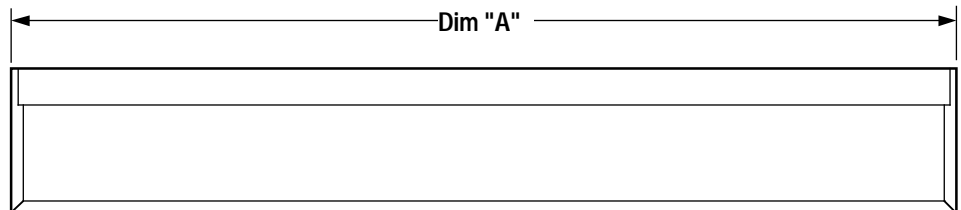

DH - Picture Window - DH Window Combinations

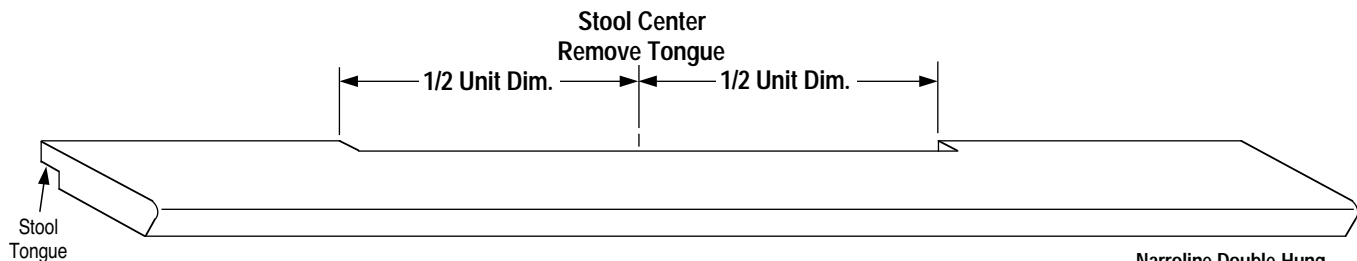

A. Optional Narroline Stool Application

Narroline Stool For:
Picture Window with Narroline Flankers

Unit Description	Part Number	Dim "A"
20-58-20	1613848	125-15/16"
20-50-20	1613846	117-15/16"
18-58-18		
20-44-20	1613844	109-15/16"
18-50-18		
18-44-18	1613842	101-15/16"

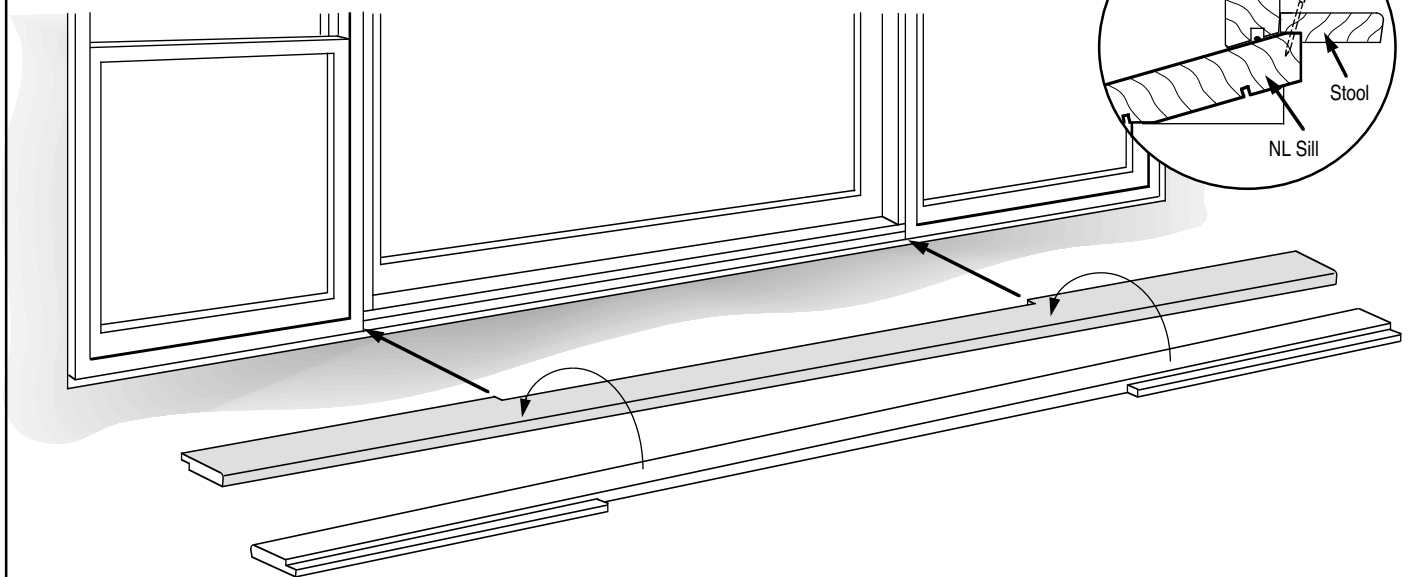

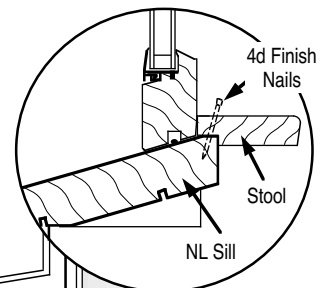

1. Locate the center of the stool using dimension "A". Measure 1/2 of the center unit dimension, on both sides of stool center, and remove stool tongue.

2. Position stool on sill of picture window. Stool will slide into cut out areas at Narroline Double-Hung side jambs. Nail with 4d finish nails through top of stool into sill of Narroline Double-Hung units.

Narroline Double-Hung
Cross Section

⚠ WARNING

- Improper use of hand or power tools could result in personal injury and/or product damage. Follow equipment manufacturer's instructions for safe operation. Always wear safety glasses.

⚠ WARNING

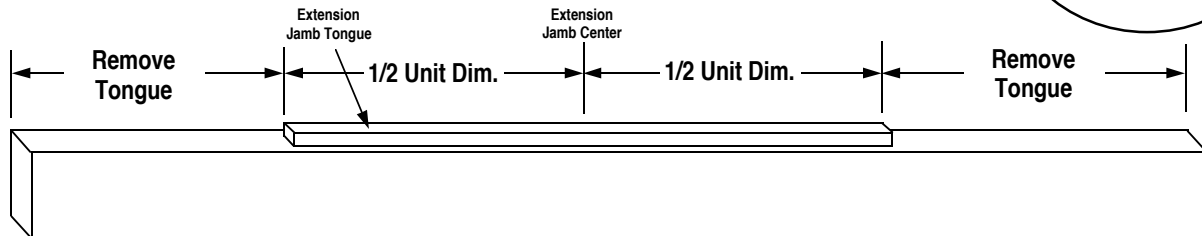

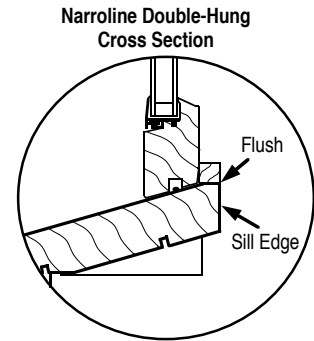

- Use of ladders and/or scaffolding and working at elevated levels may be hazardous. Follow equipment manufacturer's instructions for safe operation.

⚠ WARNING

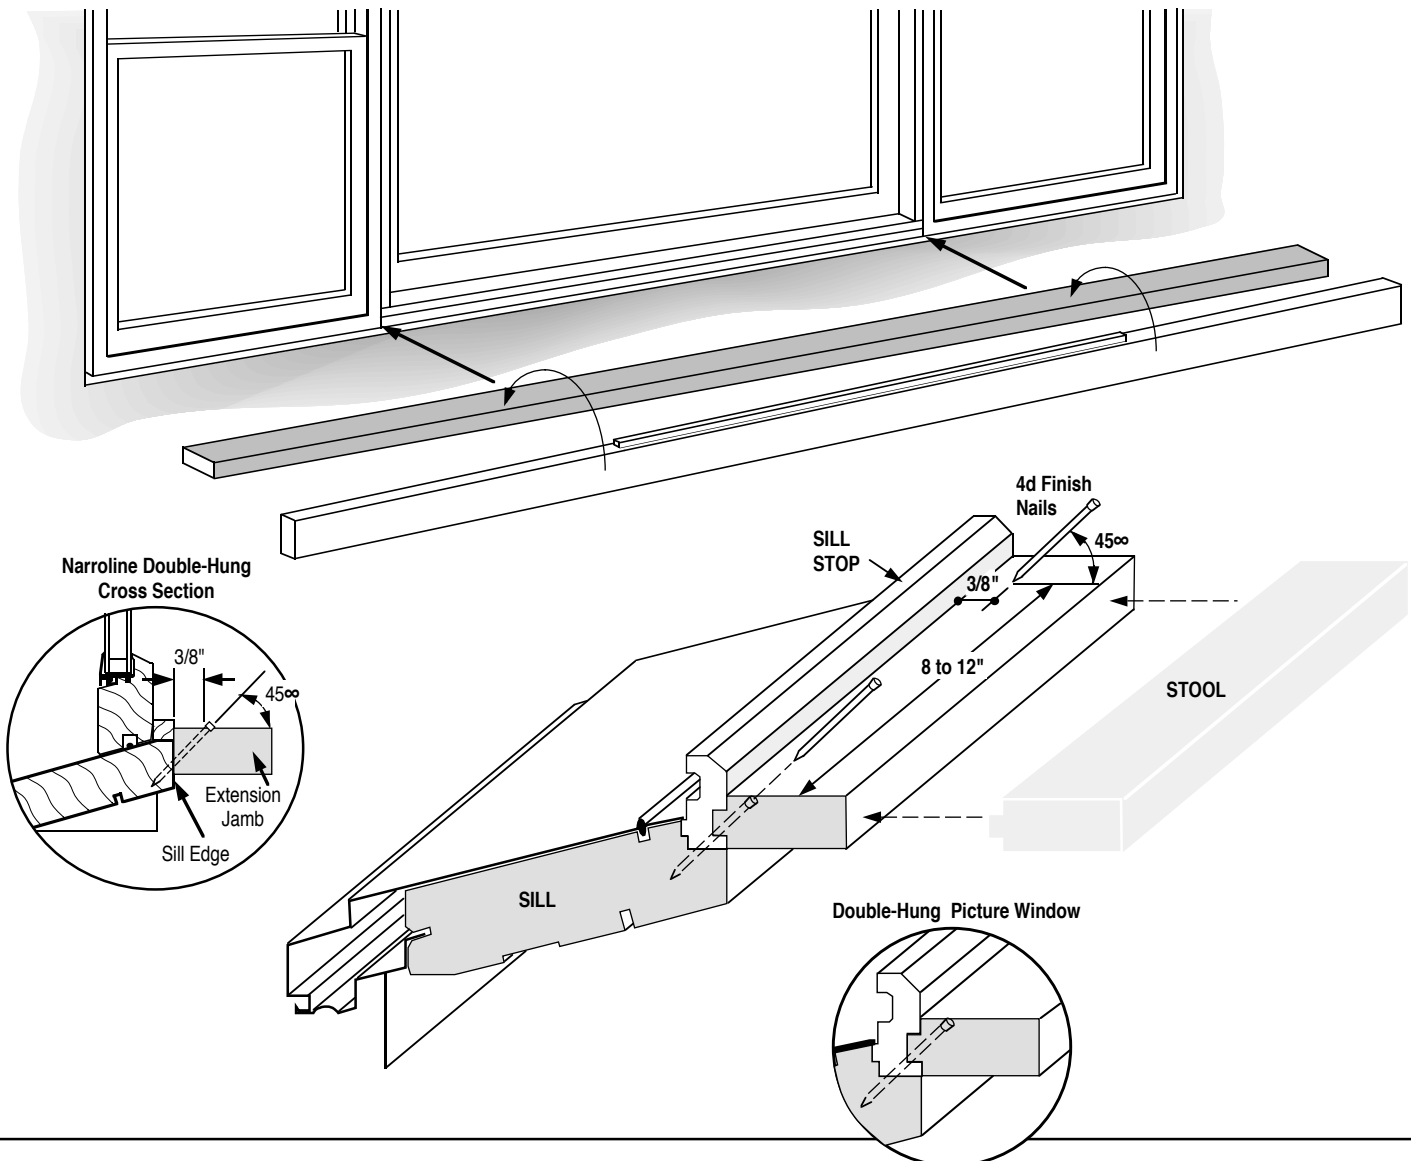

- Weight of window and door unit(s) and accessories will vary. Use a reasonable number of people with sufficient strength to lift, carry and install window or door unit(s) and accessories. Always use appropriate lifting techniques when lifting.

B. Optional Tilt-Wash Extension Jamb Application

1. Cut the Tilt-Wash extension jamb to length:
Narroline Double-Hung unit dimension +
Picture window unit dimension +
Narroline Double-Hung unit dimension.
2. Locate the center of the Tilt-Wash extension jamb. Measure 1/2 the center unit dimension, on both sides of Tilt-Wash extension jamb center, and remove the outside portion of the extension jamb tongue.

3. Check that all staples are recessed in sill stop so extension jamb will sit properly. Position extension jamb tongue in the picture window sill stop and fasten with 4d finishing nails. Attach extension jamb to Narroline units with 4d finish nails.

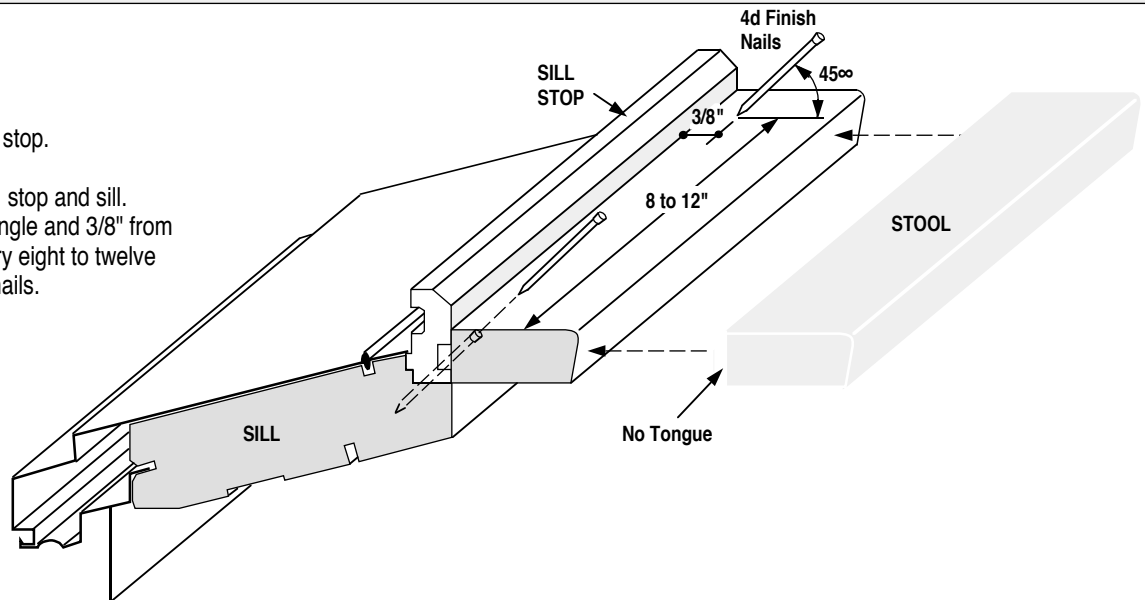

Attach Stool To Double-Hung Picture Window (Option I or II)

OPTION I

Position stool against sill stop.

Nail through stool into sill stop and sill.
Position nails at a 45° angle and 3/8" from face of sill stop. Nail every eight to twelve inches with 4d finishing nails.

OPTION II

Pre-drill exterior face of sill stop at a 45° angle.
Use a 3/16" drill bit drilling completely through sill stop every 8 to 12".

Position stool against sill stop.

Use No. 7 x 1" flathead galvanized or corrosion resistant screws to attach stool to sill stop.
Recess screws into sill stop as shown.

⚠ CAUTION

Stop must be pre-drilled to prevent splitting.
