THE SMART ALTERNATIVE TO VINYL.
A BETTER CHOICE FOR YOUR HOME.

Whether you’re replacing, remodeling or building new, Andersen® 100 Series windows and patio doors offer many advantages over vinyl. They offer superior strength and performance because they’re made of innovative Fibrex® composite material, which is 2X stronger and more durable than vinyl. They’re also available in a variety of rich dark colors with finishes that are made to last and they’re designed to retain their stability and rigidity in all climates. Plus, 100 Series windows and doors are environmentally responsible and energy efficient, making them a better choice for your home.

*When 100 Series products were tested against five leading competitors’ painted vinyl window products.
**STRENGTH & PERFORMANCE**

Fibrex® material is **2X stronger than vinyl** and it retains its stability and rigidity in all climates so weathertight seals stay weathertight.

100 Series products can withstand temperatures up to **150°F**, even in dark colors, meaning they won’t warp due to sun exposure.

---

**ENVIRONMENTALLY RESPONSIBLE**

Our exclusive Andersen® Fibrex composite material is composed of **40% reclaimed wood fiber by weight**, most of which is reclaimed from the manufacturing of Andersen wood windows.

See how Andersen created Fibrex material at **andersenwindows.com/fibrex**

---

**ENERGY-EFFICIENT**

Our weather-resistant construction seals out drafts, wind and water so well, you can relax in comfort whatever the weather. Plus, Fibrex material **blocks thermal transfer nearly 700 times better** than aluminum to help reduce heating and cooling bills.

---

**COLORS THAT LAST**

Durable, factory-finished interiors and exteriors feature a premium matte finish that isn’t shiny like vinyl plus they **never need painting and won’t fade, flake, blister or peel**.

On 100 Series products, the finish is **12X thicker than that of painted vinyl windows** resulting in superior scratch resistance so they’ll look beautiful for years to come.

---

**ADVANCED CRAFTSMANSHIP**

100 Series products feature **virtually seamless corners** for a cleaner, more contemporary look.

---

**TRANSFERABLE LIMITED WARRANTY**

Most other window and door warranties end when a home is sold, but our coverage — 20 years on glass, 10 years on non-glass parts — transfers from each homeowner to the next. And, because it’s not prorated, the coverage offers **full benefits, year after year, owner after owner**. So it can add real value when you decide to sell your home.

---

**OWNER2OWNER LIMITED WARRANTY**

*Visit andersenwindows.com/warranty for details.

WINDOW & DOOR TYPES

Choose the product style and frame type needed to complete your replacement, remodeling or new construction project and bring your vision to life.

Single-Hung Windows
Single-hung windows feature a stationary upper sash and operable lower sash that slides up and down.

Casement & Awning Windows
Casement windows are hinged on the side and open outward to the left or right, while awning windows are hinged at the top and open outward.

Gliding Windows
Gliding windows have one stationary sash and one operating sash that glides horizontally. A three-sash configuration, where two sash glide past a fixed center sash is also available.

Specialty Windows
Specialty windows are stationary (non-operable) windows characterized by their special shapes, including curves and dramatic angles. A variety of shapes are available to complement your home’s architecture.

Gliding Patio Doors
Patio doors feature one stationary panel and one that glides smoothly on adjustable rollers. Add character and light with a sidelight or transom.

Windows and doors are available in custom sizes to fit all projects.
**COLOR OPTIONS**

**EXTERIOR COLORS**

100 Series windows and patio doors come in five exterior colors, including dark bronze and black — colors that are darker and richer than those of most vinyl windows.

- White
- Sandtone
- Terratone
- Dark Bronze
- Black

**INTERIOR COLORS**

100 Series windows and patio doors feature a premium matte finish inside for an attractive appearance.

- White
- Sandtone
- Dark Bronze
- Black

**HARDWARE OPTIONS**

**WINDOWS**

**Single-Hung & Gliding**

- Lock automatically engages when window is closed.
- Hardware color matches the window’s interior. Shown in white.

- Optional Slim Line Metal Hardware

**Casement & Awning**

- Folding handle avoids interference with window treatments.

**PATIO DOORS**

**Tulsa Hardware**

- Exterior handle matches exterior door color. Shown in dark bronze.
- Interior handle matches interior door color. Shown in white.

**Optional Afton Hardware**

- Exterior handle matches exterior door color. Shown in dark bronze.
- Interior handle matches interior door color. Shown in white.

**Bold names denotes finish shown.**

Wireless open/close sensors are available. Visit andersenwindows.com/connect to learn more.

*Products with dark bronze, black and Sandtone interiors have matching exteriors.

Printing limitations prevent exact duplication of colors. See your Andersen supplier for actual color samples.
GLASS OPTIONS

Andersen has the glass you need to get the performance you want with options for every climate, project and customer. Check with your Andersen supplier for the selections that meet ENERGY STAR® requirements in your area.

ADDITIONAL GLASS OPTIONS

Tempered safety glass is available and is standard on gliding patio doors. Sound reducing glass options are also available. Patterned glass lets in light while obscuring vision and adds a unique, decorative touch to your home.

INSECT SCREEN OPTIONS

Insect screens for windows and patio doors have a fiberglass screen mesh. Optional TruScene® insect screens for windows are made with a micro-fine stainless steel mesh, providing 50% more clarity than our conventional insect screens.
**GRILLE OPTIONS**

Customize the look of your windows and patio doors with a variety of grille options to complement virtually any style of home.

**Finelight™ Grilles-Between-the-Glass** make glass easy to clean. They have an elegant, sculpted profile, plus they offer a two-sided color scheme, allowing them to match both the interior and exterior of the window or patio door.

**Finelight Grilles-Between-the-Glass with Exterior Grilles** make interior glass easier to clean, while permanent exterior grilles provide architectural style and detail.

**Full Divided Light** feature grilles permanently applied to the interior and exterior of the window with a spacer between the glass for an authentic look.

**Simulated Divided Light** offers permanent grilles on the exterior and interior with no spacer between the glass.
