<tbody>
<tr>
<td>(1)</td>
<td>Dry or Teflon® based spray lubricant</td>
</tr>
<tr>
<td>(1)</td>
<td>Clean, dry cloth</td>
</tr>
</tbody>
</table>

Inswing patio shown throughout guide.

**WARNING**

Use caution when working at elevated heights and around unit openings. Follow manufacturers’ instructions for ladders and/or scaffolding. Failure to do so may result in injury or death.

**CAUTION**

Follow instructions of spray lubricant manufacturer regarding safety, material application and compatibility with this product.
Open door and hold handle down retracting all locking latches.

Rotate handle up and down to work lubricant into latch housing.

Lubricate all retracted latches with a dry or Teflon® based spray lubricant as shown.

Extend dead bolt to the locked position using dead bolt thumb latch, and lubricate around dead bolt.

Rotate dead bolt back and forth using dead bolt thumb latch to work lubricant into dead bolt housing and wipe clean any lubricant overspray with a clean dry cloth.

> Multi-point lock maintenance procedure is complete.
